

**GLOBAL-IDENT™**  
 **Global-Scan™**

**Companion Animal  
& Equine  
Microchip Scanner**

**Global-Scan™  
GS 110**

**Global-Scan™, this easy to use highly performing unit is capable of reading FDX-B, FDX-A, HDX and EM 4102. Global-Scan can also communicate through a serial port with a computer and can store up to 800 identification codes.**

#### **About the Global-Scan™ functionalities**

Message displays are available in English – French – Spanish – Italian – Portuguese – German & Polish

There is the possibility of recording up to 800 previously-read transponder numbers in the scanner memory.

Global-Scan™ can read transponders of the type FDX-B, FDX-A (Destron, Avid, FECAVA), HDX (Tiris), EM H4102.

Global-Scan™ has a serial link of the type RS 232 (TX only).

#### **Technical specifications:**

Conform to CE norms and ISO 11784 (controlled by CETIM)

#### **Dimensions:**

L15cm, W 8cm, H 3.5cm

Weight: 140 grams

#### **Power:**

Standard 9 Volt alkaline (or lithium) battery PP3

#### **Reading distances:**

FDX-B (8 to10 centimetres)

FDX-A (5.5 to 6.5 centimetres)

(Reading distances can vary and depend on the manufacturer of the used microchip)

HDX 20/25cm (ear tag)

#### **Options:**

Computer interface cable RS232

#### **Working temperatures:**

Storage conditions: -10°C to + 60°C

Usages conditions: 0°C to + 50°C
